EDUCATION

Bachelors of Engineering in Computer , CGPA: 7.38
Pillai HOC college of Engineering and Technology, (University of Mumbai)

2020 — 2024

PROJECTS

Real-Estate Project (MongoDB, Express.js, React.js, Node.js, Material UI, Redux, Tailwind CSS, Google Maps API) **Jan 2025**

- Developed a property listing platform with features like user authentication, property search, and filtering based on location, price, and property type.
- Integrated Redux for state management, optimizing application performance and ensuring seamless data flow.
- Implemented an interactive map for property visualization using Google Maps API, enhancing user experience and ease of navigation.
- Designed a responsive UI using Material UI and Tailwind CSS, ensuring a modern and intuitive user interface across devices.
- Built a role-based access control system for users, agents, and admins to manage property listings and approvals efficiently.

Book Store Application (MongoDB, Express.js, React.js, Node.js, Material UI, Tailwind CSS, Flowbite, Vercel) **Nov 2024**

- Developed a full-stack book store application allowing users to browse, search, and filter books based on categories, authors, and prices.
- Implemented CRUD operations, enabling users to add, update, delete, and view book details efficiently.
- Integrated user authentication for secure access, allowing registered users to manage their book collections.
- Designed a responsive and user-friendly interface using Material UI, Tailwind CSS, and Flowbite for enhanced UI components.

E-Commerce Website (React.js, Redux, Tailwind CSS, Material UI) **Sept 2024**

- Developed a fully responsive e-commerce website using React.js, enabling users to browse and purchase products seamlessly.
- Implemented global state management with Redux for efficient product handling, cart management, and user interactions.
- Designed an intuitive and modern UI using Tailwind CSS and Material UI to ensure a smooth shopping experience across devices.
- Integrated user authentication using local storage to manage login sessions, ensuring a personalized shopping experience.
- Optimized website performance with lazy loading, code splitting, and best practices for fast page loads.

IMDB Clone (React.js, Tailwind CSS, Flowbite) **July 2024**

- Developed an IMDB-like movie browsing platform using React.js, allowing users to explore trending, popular, and top-rated movies.
- Integrated real-time movie data fetching using a public API (e.g., TMDB API) to display dynamic movie details, ratings, trailers, and cast information, ensuring up-to-date content for users.
- Added search and filter functionality, allowing users to quickly find movies by title, genre, and year of release.
- Implemented local state management using React hooks (useState, useEffect) to efficiently handle movie data and user interactions.

EXPERIENCE

Frontend Developer (Intern)

Rashtriya Chemicals Fertilizers Ltd

July 2023

Mumbai

- Developed an intuitive interface for adding chemical data using React.js, ensuring accurate and efficient data entry.
- Implemented form validation and structured input fields to prevent errors and maintain data consistency.
- Designed a clean and user-friendly UI using Tailwind CSS and Material UI for better accessibility and usability.
- Optimized the data handling process to improve performance and minimize load times for seamless interactions.

SKILLS

Programming Languages: JavaScript, HTML, CSS, SQL

Frontend Technologies: React.js, Redux, Material UI, Tailwind CSS, Bootstrap

Backend Technologies: Node.js, Express.js, MongoDB, Mongoose, REST APIs

Dev Tools & Platforms: Git, GitHub, Firebase, Vercel, Postman, Netlify

Other Skills: API Integration, UI/UX, Problem Solving

CERTIFICATIONS & COURSES

- **Full Stack MERN Development** – NxtWave CCBP (Pursuing)
- **React.js Course** – Udemy
